Product Description

Features

Sealed Control Unit -Sealed control unit for improved water resistance while wet cutting.

Magnesium Guard -The cutting wheel guard is made from lightweight and durable magnesium to improve maneuverability.

Spindle Locking Mechanism -The spindle locking mechanism allows the user to lock the wheel rotation for easier removal of the wheel.

Water Connection and Shut-Off Valve -The water connection is designed for the user to shut off the water when the unit is not in use and not waste water.

Sealed Belt Drive -Maintenance-free sealed belt drive.

STIHL QuickStop™ Wheel Brake -Allows extended guard adjustability by reducing the risk of injury from kickback when the guard has been adjusted to expose the top portion of the wheel

Electronic Coaster Brake -Stops wheel after use.

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Compact, Ergonomic Design -The compact, ergonomic design provides more comfortable use.

Brushless Motor -The advanced brushless motor virtually eliminates maintenance while supplying the power and performance you expect from STIHL.

Warnings and Safety

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand, and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

WARNING! Never use carbide-tipped, wood cutting, or circular saw blades on cut-off machines. They can cause severe personal injury or death from reactive forces, blade contact, or thrown tips. Never cut wood of any type.
