**Categories:**[STIHL](#)

### Product Description

#### Features

**IPX4 Rating** -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

**Efficient and Virtually Maintenance-Free Motor** -The brushless motor is ideal for noise-sensitive environments with virtually zero maintenance required.

**Bike Handle** -When used in conjunction with a harness, the bike handle allows the machine to be easily guided, enabling a smooth horizontal mowing action to cover large areas quickly and efficiently. With soft grips for increased comfort, the bike handle provides greater control and helps reduce operator fatigue.

**Adjustable Front Handle** -The front handle is easily adjustable (360-degree rotation) for comfort.

Rubberized Soft-Touch Handle -**Variable-Speed Trigger** -

**Retaining Latch** -All STIHL battery-powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

**High-Tech Polymer Housing** -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

**Throttle Trigger Interlock** -This safety feature must be depressed before the trigger can be activated.

**Made in America** -A majority of STIHL products sold in America are made in America of U.S. and global materials.

The FSA 120 is compatible with AP System batteries and requires virtually no maintenance thanks to its brushless motor. Choose from either line heads or grass cutting blade attachments with automatic speed adjustments for either option. Enjoy operator control and comfort with the bike-handle grip and controls.

#### Warnings and Safety

**Note:** STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

**WARNING!** Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand, and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle, and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.
