

less downtime.

Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

WARNING! Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand, and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle, and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

Stihl Battery Trimmer - FSA 200

This powerful battery-powered bike-handle trimmer is designed for professionals to take on a wide range of landscaping projects.

Product Description

Features

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Built for Trimming Across a Range of Environments and Landscapes -With the capability to run line heads and certain metal blades, as well as having some of the same components found in STIHL pro gas models, these are powerful and versatile tools that deliver pro performance across a range of environments and landscapes.

STIHL Smart connector 2 A Ready -With its motor housing molded to accept the Smart connector 2 A, users are able to take advantage of the STIHL connected platform. STIHL connected gives users a new level of tool management from their connected device.

Bike Handle -When used in conjunction with a harness, the bike handle allows the machine to be easily guided, enabling a smooth horizontal mowing action to cover large areas quickly and efficiently. With soft grips for increased comfort, the bike handle provides greater control and helps reduce operator fatigue.

STIHL Electric Motor -**AutoCut® C EasySpool™** -

Hanging Loop -Hang your product securely on a wall to save space using the loop in the handle housing.

Adjustable Front Handle -The front handle is easily adjustable (360-degree rotation) for comfort.

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

Retaining Latch -All STIHL battery-powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

High-Tech Polymer Housing -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Throttle Trigger Interlock -This safety feature must be depressed before the trigger can be activated.

The FSA 200 is the most powerful battery-powered bike-handled trimmer in the STIHL lineup. Professionals can count on dependable performance while using this durable, weather-resistant trimmer, which is built for a wide range of cutting applications, including trimming, cutting, and weed clearing. The FSA 200 features an increased cutting width and a variable-speed trigger, offering optimal performance and longer run times, so professionals can take on a range of landscaping projects with maneuverability and control, while its anti-vibration system helps reduce fatigue. Built with a brushless motor that makes it virtually maintenance-free, the FSA 200 allows professionals to get more work done with
