

ergonomic grip options to aid user comfort and optimal control. The large deflector accommodates the wider cutting swath of the AutoCut® 46-2 and a durable clutch housing rounds out the design to make the FS 361 C-EM a great all-around tool for professional use.

Stihl Gas Brush Cutter - FS 361 C-EM

Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions. The FS 361 C-EM is a high-performance brushcutter/clearing saw for professional jobs.

WARNING! Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand, and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle, and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To prevent the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand, and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through **U.S. STIHL Dealers** are for distribution in the United States only.

Powerful Low Exhaust Emission Engine -A powerful low exhaust emission engine saves users fuel and operating costs without losing the power they count on to get the job done.

STIHL Easy2Start™ -The STIHL Easy2Start™ system makes starting STIHL outdoor power tools almost effortless, eliminating the need for a strong pull of the starting cord. This advanced starting system is designed to make starting STIHL products fast and easy. The specific system may vary by model, but in each case, a quick pull overcomes the engine's compression to minimize the strength and effort required to start. Available on select products.

Bike Handle -When used in conjunction with a harness, the bike handle allows the machine to be easily guided, enabling a smooth horizontal mowing action to cover large areas quickly and efficiently. With soft grips for increased comfort, the bike handle provides greater control and helps reduce operator fatigue.

Tool-Free Handle Adjustment -The central wing nut enables easy adjustment without the use of tools. For transportation and space-saving storage, the handle can be rotated 90°.

Multi-Function Control Handle -**Air Filter Cover** -

Protected or Enclosed Control Cables -Dangling and loose wires are eliminated.

Protected Spark Arrestor Muffler -Large baffles reduce noise level and contain a screen designed to reduce the emission of sparks.

Protected Spark Plug -The spark plug is protected yet easy to change.

Protected Choke Lever/Knob -The choke is protected to help prevent damage.

High-Tech Polymer Housing -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Heavy-Duty Steel-On-Steel Clutch -Centrifugal clutch is designed to reduce slippage.

Purge Pump Primer -By pressing the bulb, this small fuel pump delivers fuel to the carburetor, reducing the number of starting pulls needed after an extended break between uses.

Upright Translucent Fuel Tank -Easily check the fuel level before starting work. If fuel is needed, the upright position makes the tank easier to fill.

Fully-Lined Drive Shaft -A lined shaft provides smooth operation and less vibration.

The high-performing FS 361 C-EM brushcutter is a versatile professional tool for cutting and thinning growth in a variety of challenging settings. It features an advanced STIHL M-Tronic™ 3.0 system for maximum efficiency in changing conditions. The FS 361 C-EM is available as a brushcutter or with the AutoCut® 46-2 head, making it perfect for cutting and thinning heavy growth. This brushcutter is ideal for use in forestry, municipal, and farm and ranch jobs that require efficiency and heavy-duty power. The STIHL FS Advanced Handle Grip offers a unique operating concept with multiple
