Product Description

Features

STIHL Electric Motor -Lightweight and compact, STIHL electric motors require minimal maintenance and feature low noise levels and reduced vibration.

AutoCut® C EasySpool™ -AutoCut® C versions reload line by simply inserting the line into eyelets and twisting the bump knob.

Loop Handle -A thumb screw allows the ergonomic loop handle to be easily adjusted to the desired position without tools.

Adjustable Front Handle -The front handle is easily adjustable (360-degree rotation) for comfort.

Start/Run/Stop Controls on Handle -**Variable-Speed Trigger** -

Hanging Loop -Hang your product securely on a wall to save space using the loop in the handle housing.

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Retaining Latch -All STIHL battery-powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

High-Tech Polymer Housing -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Throttle Trigger Interlock -This safety feature must be depressed before the trigger can be activated.

Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

WARNING! Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand, and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle, and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.
