

WARNING! Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand, and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle, and double-shoulder harness, and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

STIHL Battery Trimmer - FSA 135 R

This battery-powered loop handle trimmer delivers premium performance packed in a durable, lightweight design.

Product Description

Features

Quiet Operation -This product is ideal for noise-sensitive areas.

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

AutoCut® C EasySpool™ -AutoCut® C versions reload line by simply inserting the line into eyelets and twisting the bump knob.

Battery Indicator Lights -This product is equipped with built-in indicator lights, showing the battery status and remaining level of charge.

STIHL Electric Motor -**Loop Handle** -

Adjustable Front Handle -The front handle is easily adjustable (360-degree rotation) for comfort.

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Hanging Loop -Hang your product securely on a wall to save space using the loop in the handle housing.

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Retaining Latch -All STIHL battery-powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

High-Tech Polymer Housing -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Throttle Trigger Interlock -This safety feature must be depressed before the trigger can be activated.

For professional landscapers seeking a game-changing, battery-powered trimmer in a loop-handle design, the FSA 135 R delivers. With the same proven drive and cutting components found in STIHL professional gas trimmers and powered by a brushless motor, the FSA 135 R provides professional cutting performance with the added benefits of low noise and zero exhaust emissions. With three performance settings, this trimmer is versatile enough for a range of cutting applications. Its weather-resistant design means it's built for tough professional work, and its quiet operation maximizes productivity by extending working hours into the early morning and late evenings.

Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.
