

Warnings and Safety

WARNING! Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand, and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle, and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

Note: STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and void your STIHL warranty.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand, and follow carefully the operating and safety instructions in your instruction manual before using such products.

Product Description

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.

Features

TapAction™ AUTO CUT® Cutting Head -TapAction™ allows users to adjust the line length simply by tapping the cutting head against the ground.

IntelliCarb™ Compensating Carburetor -The IntelliCarb™ Compensating Carburetor measures the air pressure on the clean side of the air filter and adjusts the metering diaphragm in the carburetor. This keeps the RPM at a consistent level, even when the air filter begins to clog.

Loop Handle (R) -Loop handle grass trimmers and brushcutters are ideal for trimming between bushes and shrubs and other areas where space is limited.

Anti-Vibration System -STIHL has a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

Multi-Function Control Handle -**Simplified Starting Procedure** -

Air Filter Cover -Easily remove the cover for fast and easy filter cleaning or replacement.

Protected or Enclosed Control Cables -Dangling and loose wires are eliminated.

Large baffles reduce noise level and contain a screen designed to reduce the emission of sparks.

The spark plug is protected yet easy to change.

Protected Choke Lever/Knob -The choke is protected to help prevent damage.

High-Tech Polymer Housing -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Heavy-Duty Steel-On-Steel Clutch -Centrifugal clutch is designed to reduce slippage.

Purge Pump Primer -By pressing the bulb, this small fuel pump delivers fuel to the carburetor, reducing the number of starting pulls needed after an extended break between uses.

Upright Translucent Fuel Tank -Easily check the fuel level before starting work. If fuel is needed, the upright position makes the tank easier to fill.

Dense, thick weeds can't stand up to the professional power of the STIHL FS 131 R trimmer. It features a low exhaust emission engine and a larger fuel tank that delivers 30% longer run times when compared to previous models. This professional trimmer also features simplified starting enabled by the semi-automatic choke lever and one-touch stopping to reduce the hassle of restarts. Its rubberized loop handle provides a comfortable grip. Add this tough trimmer to your fleet today.
