Product Description

Features

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Laser-Cut Diamond-Ground Blades -Each blade is laser cut and ground using diamond discs. The hardened cutting edges are highly resilient and remain sharp for a longer period of time.

Brushless Motor -The advanced brushless motor virtually eliminates maintenance while supplying the power and performance you expect from STIHL.

Double-Sided Blades -

Rubberized Soft-Touch Handle -

Functional Design -

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Ergonomic Loop Handle -The ergonomic loop handle is ideal for making cuts in any direction.

Onboard Air Filter -The onboard metal air filter protects the motor and electronics from large debris.

Retaining Latch -STIHL battery-powered products feature a retaining latch that prevents the unit from unintentional starts when the battery is inserted.

Compact, Ergonomic Design -The compact, ergonomic design provides more comfortable use.

Onboard Battery Slot -This product features an onboard battery slot to easily allow use with an onboard cartridge-style battery or backpack battery.

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

As part of the 135 platform, the HLA 135 K (0°) extended-reach hedge trimmer lets pros enjoy the clean, quiet benefits of battery-powered equipment without compromising performance and durability thanks to zero exhaust emissions and low noise. Built using the same shaft, gearbox, and blades as found on its gas counterpart, this trimmer—the lightest HLA 135—combines a proven, durable weather-resistant design with STIHL battery power. With a short shaft (designated by K), a zero-degree fixed blade for precision trimming, and a variable-speed trigger with three performance levels, you can take on jobs with the versatility and performance you demand. The powerful brushless motor is virtually maintenance free. The onboard battery slot can support either an onboard battery or a backpack battery for even longer run times.
