

*A majority of STIHL products sold in America are made in America of U.S. and global materials.

Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions. An articulating cutting head and extended reach shaft give pros the reach and range they need.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.

Product Description

Features

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Laser-Cut Diamond-Ground Blades -Each blade is laser cut and ground using diamond discs. The hardened cutting edges are highly resilient and remain sharp for a longer period of time.

Brushless Motor -The advanced brushless motor virtually eliminates maintenance while supplying the power and performance you expect from STIHL.

Double-Sided Blades -

Functional Design -

Lightweight Portability -

Ergonomic Loop Handle -The ergonomic loop handle is ideal for making cuts in any direction.

Onboard Air Filter -The onboard metal air filter protects the motor and electronics from large debris.

Blade Scabbard -The blade cover helps protect the cutting blade during storage and transport.

Compact, Ergonomic Design -The compact, ergonomic design provides more comfortable use.

Onboard Battery Slot -This product features an onboard battery slot to easily allow use with an onboard cartridge-style battery or backpack battery.

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

Multi-Function Control Handle -Having easy access to all of the controls on one comfortable handle helps makes it easier to complete tasks so the operator's hand never has to leave the handle.

Built using the same shaft, gearbox, and blades as found on the gas-powered HL 94, the HLA 135 with its 145° adjustable blade gives professionals the benefits of clean, quiet battery power in build and design with proven durability thanks to zero exhaust emissions and low noise. A virtually maintenance-free brushless motor delivering consistent power and a variable-speed trigger with three performance levels mean pros don't have to compromise the job to reap the benefits of Battery Power. It combines a proven, durable weather-resistant design with an onboard battery slot that can support either an onboard battery or a backpack battery for even longer run times.
