### Product Description

#### Features

**Rear Swivel Handle** -Users can swivel the rear handle for improved comfort at various speeds.

**Simplified Starting Procedure** -To get started, users simply pump the fuel primer, set the choke, and pull the starter cord. The built-in stop switch allows the user to turn off the engine with a simple press of the button. When the engine is off, the throttle lock automatically returns to the "start" setting. The tool will be ready to start again when the user is ready to get back to work.

**Double-Sided Blades** -The dual-ground blade system provides a clean cut and is ideal for cutting through stronger, thicker branches.

**Compact, Ergonomic Design** -The compact, ergonomic design provides more comfortable use.

**Multi-Function Control Handle** -Having easy access to all controls on one handle helps make it easier to complete tasks, so the operator's hand never has to leave the handle.

**High-Tech Polymer Housings** -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

With greater fuel efficiency and less weight than previous models, the STIHL HS 82 R is a win-win for professional landscapers. The "R" indicates a cutting blade designed for thinning, rejuvenation, and pruning of woody shrubs and hedges. Available in both 24" and 30" blade lengths, this hedge trimmer offers two ways to tackle trimming tasks. Even with its high torque engine, the HS 82 R uses 20% less fuel than previous models, reducing fuel costs and improving the bottom line. It also features low-vibration technology and a swivel handle for comfort and control when cutting.

#### Warnings and Safety

**Note:** STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty.

**STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.**
