Product Description

Features

STIHL Easy2Start™ -The STIHL Easy2Start™ system makes starting STIHL® outdoor power tools almost effortless, eliminating the need for a strong pull of the starting cord. This advanced starting system is designed to make starting STIHL® products fast and easy. The specific system may vary by model, but in each case, a quick pull overcomes the engine's compression to minimize the strength and effort required to start. Available on selected products.

Master Control Lever™ -The Master Control Lever™ is an easy to use single lever, operating the choke, starting throttle lock, and on-off switch. The operator must pull the throttle trigger before moving the Master Control Lever™ to the choke position.

Double-Sided Blades -The dual-ground blade system provides a clean cut and is ideal for cutting through stronger, thicker branches.

Compact, Ergonomic Design -The compact, ergonomic design provides more comfortable use.

Multi-Function Control Handle -Having easy access to all controls on one handle helps make it easier to complete tasks, so the operator's hand never has to leave the handle.

High-Tech Polymer Housings -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Warnings and Safety

Note: STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.
