## Product Description

### Features

**Made in America** -A majority of STIHL products sold in America are made in America of U.S. and global materials.

**Multi-Function Control Handle** -Having easy access to all of the controls on one comfortable handle help makes it easier to complete tasks so the operator's hand never has to leave the handle.

**Anti-Vibration System** -STIHL has a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

**Loop Handle** -The loop handle (R) is an adjustable rounded handle mounted on the shaft for support and control. The handle is designed to help control the machine in different positions, ideal for reaching tough spots. The handle is large enough to accommodate a gloved hand comfortably.

**Quick-Release Coupling** -The quick-release coupling system makes it easy to switch between Kombi attachments. In addition, this feature allows KombiSystem equipment to be dismantled into two parts for easy transport and storage and then re-assembled quickly without tools.

**Split Shaft** -A split shaft and special toolless quick-release coupling lets you easily switch between attachments, making the KombiSystem highly versatile as well as easy to transport and store.

**Electronic Ignition Module** -The electronic ignition provides reliable starting and because it is fully enclosed, it is protected from moisture and debris for longer service life.

**Purge Pump Primer** -A small fuel pump delivers fuel to the carburetor when pushed, reducing the number of starting strokes required following extended breaks in operation.

Tackle yard projects with ease with the KM 111 R KombiMotor. Part of the STIHL KombiSystem of multi-tasking tools, this model features a powerful, low exhaust emission engine with a large fuel tank that provides 30% longer run times than the previous model. Professional landscapers looking for power and versatility will like the KM 111 R and its semi-automatic choke lever, one-touch stop, and improved air filter extending service life and replacement intervals. Plus, the KM 111 R is compatible with up to 14 interchangeable attachments, allowing you to operate and power up multiple tools with one KombiMotor while saving on fuel and maintenance.

The STIHL KombiSystem is a versatile landscaping system that includes a powerful STIHL KombiMotor and a full line of attachments. Together, they give landscaping professionals the ability to tackle a tremendous range of outdoor tasks without loading the trailer with a pile of tools. Attachments include trimmers, blowers, hedge trimmers, edgers, pruners, cultivators, and more. Each attachment slides into the KombiMotor effortlessly and is secured via a quick-release coupling system, saving you time as well as trailer space.

Note: STIHL KombiMotors and STIHL KombiSystem attachments are sold separately.

Note: Not available for purchase or delivery in California
