## Product Description

### Features

**Made in America** -A majority of STIHL products sold in America are made in America of U.S. and global materials.

**Purge Pump Primer** -A small fuel pump delivers fuel to the carburetor when pushed, reducing the number of starting strokes required following extended breaks in operation.

**Loop Handle** -The loop handle (R) is an adjustable rounded handle mounted on the shaft for support and control. The handle is designed to help control the machine in different positions, ideal for reaching tough spots. The handle is large enough to accommodate a gloved hand comfortably.

**Quick-Release Coupling** -The quick-release coupling system makes it easy to switch between Kombi attachments. In addition, this feature allows KombiSystem equipment to be dismantled into two parts for easy transport and storage and then re-assembled quickly without tools.

**Split Shaft** -A split shaft and special toolless quick-release coupling lets you easily switch between attachments, making the KombiSystem highly versatile as well as easy to transport and store.

**Anti-Vibration System** -STIHL has a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

**Variable-Speed Trigger** -The variable-speed trigger allows precise control for each task.

**Multi-Function Control Handle** -Having easy access to all of the controls on one comfortable handle help makes it easier to complete tasks so the operator's hand never has to leave the handle.

**High-Tech Polymer Housings** -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

The two-stroke KM 94 R KombiMotor, combined with any of 14 optional tools, offers landscape professionals an efficient multi-task system to meet the versatile needs of their clients' yards. The lightest weight model in the STIHL KombiSystem line-up, the KM 94 R weighs in at a mere 8.8 lbs. The ergonomic loop handle, coupled with an excellent power-to-weight ratio, delivers the maneuverability to navigate obstacles while helping reduce user fatigue. The multi-task concept provides convenience and efficiency through reduced maintenance and storage —one engine for many tools and tasks.\* The innovative ECOSPEED throttle set wheel allows the user to set the most effective throttle speed for a particular job and attachment. Now it's even easier to love the space-saving, cost-saving STIHL KombiSystem.

The STIHL KombiSystem is a versatile landscaping system that includes a powerful STIHL KombiMotor and a full line of attachments. Together, they give landscaping professionals the ability to tackle a tremendous range of outdoor tasks without loading the trailer with a pile of tools. Attachments include trimmers, blowers, hedge trimmers, edgers, pruners, cultivators, and more. Each attachment slides into the KombiMotor effortlessly and is secured via a quick-release coupling system, saving you time as well as trailer space.

Note: STIHL KombiMotors and STIHL KombiSystem attachments are sold separately.
