Product Description

Features

Powerful Homeowner KombiMotor -With a max speed of 7,000 rpm, the KMA 80 R has the power to take on any yard chore.

Built for Versatility -Perform a wide range of yard maintenance tasks with one powerhead.

Compatible with KombiSystem Attachments -This product is compatible with the existing KombiSystem attachments for versatility and adaptability.*

Adjustable front handle -The front handle is easily adjustable (360-degree rotation) for comfort.

Loop Handle (R) -The loop handle (R) is an adjustable rounded handle mounted on a shaft for support and control. The handle is designed to help control the machine in different positions, ideal for reaching tough spots. The handle is large enough to accommodate a gloved hand comfortably.

Quick-Release Coupling -The quick-release coupling system makes it easy to switch between Kombi attachments. In addition, this feature allows KombiSystem equipment to be dismantled into two parts for easy transport and storage and then re-assembled quickly without tools.

Carrying Ring -The KMA 200 R is designed with a carrying ring for ergonomic working when using the shoulder harness.

Multi-Function Control Handle -Having easy access to all of the controls on one comfortable handle help makes it easier to complete tasks so the operator's hand never has to leave the handle.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

Split Shaft -A split shaft and special toolless quick-release coupling lets you easily switch between attachments, making the KombiSystem highly versatile as well as easy to transport and store.

Throttle Trigger Interlock -This safety feature must be depressed before the trigger can be activated.

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

Warnings and Safety

WARNING!
