## Product Description

### Features

**Most Powerful KombiMotor in the STIHL Lineup** -The KMA 200 R is the most powerful KombiMotor in the STIHL lineup and features 12% higher speed than the KMA 135 R.

**Compatible with the FSS-KM Kombi Attachment** -The KMA 200 R is compatible with 15 Kombi tools including the FSS-KM trimmer attachment featuring 18" cutting width.

**Loop Handle w/ Quick Clamping Device** -The KMA 200 R is designed with a loop handle with a quick clamping device, allowing easy adjustment of handle placement.

**Built for a Range of Landscaping Tasks** -The KMA 200 R is compatible with 15 interchangeable Kombi attachments.

**Three Speed Levels** -The three speed levels allow users to work more efficiently and optimize performance depending on the application.

**Air Filter** -The KMA 200 R features an air filter for lowered maintenance needs and longer life.

**Quick-Release Coupling** -The quick-release coupling system makes it easy to switch between Kombi attachments. In addition, this feature allows KombiSystem equipment to be dismantled into two parts for easy transport and storage and then re-assembled quickly without tools.

**STIHL Smart connector 2 A Ready** -With its motor housing molded to accept the Smart connector 2 A, users are able to take advantage of the STIHL connected platform. STIHL connected gives users a new level of tool management from their connected device.

**Quick-Release Coupling** -The quick-release coupling system makes it easy to switch between Kombi attachments. In addition, this feature allows KombiSystem equipment to be dismantled into two parts for easy transport and storage and then re-assembled quickly without tools.

**Variable-Speed Trigger** -The variable-speed trigger allows precise control for each task.

**Electronic Ignition Module** -The electronic ignition provides reliable starting and because it is fully enclosed, it is protected from moisture and debris for longer service life.

**Multi-Function Control Handle** -Having easy access to all of the controls on one comfortable handle help makes it easier to complete tasks so the operator's hand never has to leave the handle.

**Adjustable front handle** -The front handle is easily adjustable (360-degree rotation) for comfort.

**IPX4 Rating** -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.
