Product Description

Features

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Two Speed Levels -A choice of speed levels allows users to optimize the performance of the tool. Use low speed for extended run times and less demanding jobs. Choose high speed for maximum performance.

Harness Hook for Shoulder Strap -The tool-free adjustable harness hook allows user to quickly and easily adjust for size for optimum working comfort.

Built for Versatility -Perform a wide range of yard maintenance tasks with one powerhead.

Adjustable front handle -The front handle is easily adjustable (360-degree rotation) for comfort.

Loop Handle (R) -The loop handle (R) is an adjustable rounded handle mounted on a shaft for support and control. The handle is designed to help control the machine in different positions, ideal for reaching tough spots. The handle is large enough to accommodate a gloved hand comfortably.

Quick-Release Coupling -The quick-release coupling system makes it easy to switch between Kombi attachments. In addition, this feature allows KombiSystem equipment to be dismantled into two parts for easy transport and storage and then re-assembled quickly without tools.

Efficient and Virtually Maintenance-Free Motor -The brushless motor is ideal for noise-sensitive environments with virtually zero maintenance required.

Multi-Function Control Handle -Having easy access to all of the controls on one comfortable handle help makes it easier to complete tasks so the operator's hand never has to leave the handle.

Retaining Latch -All STIHL battery-powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

High-Tech Polymer Housings -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Throttle Trigger Interlock -This safety feature must be depressed before the trigger can be activated.

The versatile KMA 120 R is built for professional, extended use and is powered by AP System batteries. Featuring a virtually maintenance-free brushless motor and variable-speed trigger to optimize energy usage, the KombiMotor offers efficiency and durability. Choose from up to 14 optional, toolless attachments that are compatible with both gas- and battery-powered KombiMotors to perform a wide range of landscaping tasks.*
