Product Description

Features

Viton® Seals -Viton® seals are designed to provide durability and leak protection.

Adjustable Support Harness -STIHL backpack blowers and sprayers are equipped with an adjustable support harness that distributes weight evenly across the shoulders and back, reducing user fatigue.

Diaphragm-Style Pump -The diaphragm-style pump is designed to provide durability.

Leak-resistant design -The durable, leak-resistant design helps protect operators from leaks of potentially harsh chemicals.

Variable working pressure -With a side-access variable working pressure gauge, the operators of the SGA 85 can adjust pressure without having to take off the unit.

Ergonomic Carrying System -With an ergonomic carrying system and chest strap, the SGA 85 is comfortable to use for long periods of time and helps reduce operator fatigue.

Tank Filter -The filter at the bottom of the tank helps protect the spray pump from debris, providing uninterrupted operation.

Sealed Battery Cover -The sealed battery cover is designed to protect from accidental spills or debris.

Battery Indicator Lights -This product is equipped with built-in indicator lights, showing the battery status and remaining level of charge.

Quiet Operation -This product is ideal for noise-sensitive areas.

Ergonomic Design -The construction is designed to provide users maximum comfort and control.

Built with your professional needs in mind, the SGA 85 sprayer is the first battery-powered sprayer in the STIHL AP Battery System. Featuring strong Viton® seals for durability and reliability, an easy-to-use diaphragm-style pump, and a leak-resistant design, you can count on the robust construction of the SGA 85 for the long haul. This professional sprayer provides a high working pressure in a range anywhere from 14.5 to 87 psi, easily controlled by a variable working pressure trigger. With a variety of optional compatible nozzle accessories available for purchase, there's an option to suit the specific needs of professionals across a variety of applications. When using the AP 200 battery, the SGA 85 boasts 1,000 minutes of run time On A Single Charge™. With an ergonomic carrying system, padded shoulder straps, and a chest strap, you can operate comfortably throughout a full day of work.

Run time per charge may vary depending usage and application.
