Product Description

Features

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

Anti-Vibration System -STIHL has developed a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

Two-Speed Gearbox -The two-speed gearbox includes a neutral position as well as a reverse gear to help back out jammed drill bits.

The STIHL BT 45 wood boring drill's lightweight, gasoline-powered engine is portable and goes just about anywhere outside. Accepting a wide range of bit sizes, it is ideal for use in building or repairing wooden docks, bulkheads, fences, retaining walls and other structures in locations that lack electricity access. This well-balanced drill features a primer bulb and throttle lock for easier starting, as well as a compact, ergonomic design for easy operation. Its two-speed gearbox includes a neutral position as well as a reverse gear. It's also great for pest control service and tree service professionals, and with an optional kit, the BT 45 can be used as a core drill for concrete work. For drilling performance, choose STIHL.

Warnings and Safety

WARNING!

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.
