Product Description

Features

Max Velocity 190 mph -With a max velocity of 190 mph, the BGA 250 provides nearly twice the blowing force of the BGA 86, making it capable of taking on wet leaves and debris.

Ergonomically Designed -Featuring an ergonomically shaped blow tube pitched at an angle, the BGA 250 is designed with user comfort in mind.

Easy-to-Use Cruise Control -Features an easy-to-use cruise control function for more comfortable operation on longer projects

Reduced Noise -The battery-powered BGA 250 features reduced-noise operation, producing only 60 dB(A), ideal for optimal user comfort and working in noise-restricted areas

Lightweight Design -Weighing only 6 lbs. without battery, the lightweight design helps reduce operator fatigue.

Instant-On Performance -100% torque instantly with the squeeze of a trigger

Master Control Handle -Control power levels and initiate cruise control with one hand, allowing simple and reliable operation for both right- and left-handed users

Rubberized Soft-Touch Handle -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

Hanging Loop -The built-in hanging loop allows for easy wall-mount storage.

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

STIHL Smart connector 2 A Ready -With its motor housing molded to accept the Smart connector 2 A, users are able to take advantage of the STIHL connected platform. STIHL connected gives users a new level of tool management from their connected device.

Boost Mode -Activating the second stage of the throttle delivers maximum air velocity no matter which power level.

The BGA 250 features a max velocity of 190 mph and 26 Newtons of force, coming in at nearly twice the power of the BGA 86. The compact, lightweight design and ergonomic shape of the blower tube allows for comfortable operation. Featuring a convenient cruise control function for longer jobs, weather-resistant design, reduced-noise operation, producing only 60dB(A), and compatibility with the STIHL Smart connector 2 A ideal for fleet management, this powerhouse blower is an excellent value for professionals and homeowners alike.

Warnings and Safety
