## Product Description

### Features

**IPX4 Rating** -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

**Quiet Operation** -This product is ideal for noise-sensitive areas.

**Lightweight Portability** -This product is lightweight for easy portability, great maneuverability, and extended use.

**Instant-On Performance** -100% torque instantly with the squeeze of a trigger

**Approved for Indoor Use** -Low noise and clean operation make it ideal for use inside.

**STIHL Electric Motor** -Lightweight and compact, STIHL electric motors require minimal maintenance and feature low noise levels and reduced vibration.

**Retaining Latch** -STIHL battery-powered products feature a retaining latch that prevents the unit from unintentional starts when the battery is inserted.

**Hanging Slot** -The built-in hanging slot allows for easy storage when not in use.

**Rubberized Soft-Touch Handle** -Soft rubber texture is both easy to grip and makes the product comfortable to hold for extended periods.

**Compact, Ergonomic Design** -The compact, ergonomic design provides more comfortable use.

**Multi-Function Handle** -With the multi-function handle, all of the blower's controls can be adjusted with one hand, allowing simple and reliable operation for both right and left-handed users.

**Made in America** -A majority of STIHL products sold in America are made in America of U.S. and global materials.

Note: Must be used with battery belt or AR-style backpack battery. Required adapters purchased separately.

The most powerful battery-powered handheld blower in the STIHL AP Battery System, the BGA 200 blower not only provides nearly 25% more blowing force than the BGA 100 but is ideally suited for low-noise environments. It delivers a range of features that allow professional landscapers and homeowners with large properties to take on almost any blowing task. With no onboard battery, you can enjoy a lightweight, ergonomic design, and the quiet operation allows you to work at times and in areas where noise may be an issue. The three power levels with variable speed as well as a boost mode help tackle stubborn debris, and the cruise control setting allows you to maintain blowing force without holding down the trigger. In addition to performance features, the adjustable blower tube gives you the ability to adjust tube length to what works best for you with a single push of a button, and the metal ring provides you with durability and protection against wear.

This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.
