

Warnings and Safety

WARNING! Risk of Electrocution: These tools are not insulated. Approaching or contacting electric power lines with tools may cause serious injury or death from electrocution. Electricity can jump from one point to another by means of arcing and/or may be conducted through damp branches. This fixed-shaft professional battery-powered pole pruner is ideal for thinning and pruning. Maintain a clearance of at least 50 feet (15 meters) between the tools and any electrical line carrying live current. To reduce the risk of injury from falling objects, do not cut vertically above your head. Always wear a helmet and eye protection. Keep bystanders away. Use only STIHL authorized cutting attachments.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.

Product Description

Features

Foot Mount Included -The included foot mount provides added stability for resting the machine on the ground while also protecting the motor housing.

Robust Branch Hook -The robust branch hook helps users remove loose clippings from trees.

Efficient and Virtually Maintenance-Free Motor -The brushless motor is ideal for noise-sensitive environments with virtually zero maintenance required.

Side Access Chain Tensioner -More convenient for the user to adjust the saw chain with a bar wrench as opposed to the typical location of the guide bar adjustment screw.

Retaining Latch -All STIHL Battery powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

Multi-Function Control Handle -Having easy access to all of the controls on one comfortable handle helps makes it easier to complete tasks so the operator's hand never has to leave the handle.

High-Tech Polymer Housings -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

The HTA 150 is a fixed-shaft professional battery-powered pole pruner ideal for thinning and tree maintenance in the forest or pruning fruit trees. Featuring a hollow aluminum shaft, this pole pruner is lightweight and easy to maneuver. It is equipped with a 10" LIGHT01 guide bar and features a 3/8" STIHL PICCO™ Micro™ Mini saw chain for clean, smooth cuts and low vibration. A durable metal gearbox and robust metal branch hook allow for easy removal of loose tree clippings. A foot mount support kit is included, which adds support and stability to the machine when it is resting on the ground. When powered by the AP 300 S battery, this pole pruner has up to a 60-minute run time. The user can also control the machine's speed with the variable-speed trigger, optimizing performance for the longest run time. The HTA 150's brushless motor is efficient and virtually maintenance-free. Designed to seamlessly connect with STIHL Smart Connector 2 A, this pole pruner's design allows users to take advantage of the STIHL Connected platform.
