## Product Description

### Features

**IPX4 Rating** -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

**Toolless and semi-transparent bar and chain oil tank** -Semi-transparent bar and chain oil tank for easy oil level check

**Robust Branch Hook** -The robust branch hook helps users remove loose clippings from trees.

**Quick and Easy Length Adjustment—No Tools Required** -Users can easily adjust the shaft length without the need for tools.

**Telescoping Pole** -With an adjustable shaft, telescoping pole pruners can cut branches up to 16 feet above ground.

**Efficient and Virtually Maintenance-Free Motor** -The brushless motor is ideal for noise-sensitive environments with virtually zero maintenance required.

**Side-Access Chain Tensioner** -The side-access chain tensioner makes it much more convenient for the user to adjust the saw chain with a bar wrench as opposed to the typical location of the guide bar adjustment screw.

**Retaining Latch** -All STIHL Battery powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

**Variable-Speed Trigger** -The variable-speed trigger allows precise control for each task.

**Multi-Function Control Handle** -Having easy access to all of the controls on one comfortable handle helps makes it easier to complete tasks so the operator's hand never has to leave the handle.

**High-Tech Polymer Housings** -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Ambitious homeowners and tree care professionals now have another quiet, zero exhaust emission, low vibration option for trimming out of reach branches. The HTA 86 lithium-ion battery pole pruner offers lightweight, balanced cutting thanks to its brushless, commercial-grade, high-torque electric motor. Part of the STIHL AP System, the HTA 86 offers long run times—up to 42 minutes with the AP 200 battery—without gradual drop in performance. The HTA 86 features the same lightweight toolless telescoping shaft found on its gas-powered counterpart and extends to 12.8 feet for those tall tree-trimming tasks giving you the ability to reach up to 16-foot high. Best of all, there's no gasoline costs, no restrictive power cords, and it's virtually maintenance free.

Run time may vary based on battery type, charge level and capacity, model, operating style and conditions. Batteries and chargers can be purchased separately or as a combined set with tool.

This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.
