Warnings and Safety

WARNING! Risk of Electrocution: These tools are not insulated. Approaching or contacting electric power lines with tools may cause serious injury or death from electrocution. Electricity can jump from one point to another by means of arcing and/or may be conducted through damp branches. Maintain a clearance of at least 50 feet (15 meters) between the tools and any electrical line carrying live current. To reduce the risk of injury from falling objects, do not cut vertically above your head. Always wear a helmet and eye protection. Keep bystanders away. Use only STIHL authorized cutting attachments.

Product Description

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.

Features

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Toolless and Translucent Bar and Chain Oil Tank -The translucent bar and chain oil tank makes it easy for users to check oil levels at a glance.

Foot Mount Included -The included foot mount provides added stability for resting the machine on the ground while also protecting the motor housing.

Telescoping Pole -With an adjustable shaft, telescoping pole pruners can cut branches up to 16 feet above ground.

Onboard Metal Air Filter -The durable metal air filter allows for cool, clean air to be circulated around the motor and electronics.

Efficient and Virtually Maintenance-Free Motor -The brushless motor is ideal for noise-sensitive environments with virtually zero maintenance required.

Compact, Ergonomic Design -The compact, ergonomic design provides more comfortable use.

Side Access Chain Tensioner -More convenient for the user to adjust the saw chain with a bar wrench as opposed to the typical location of the guide bar adjustment screw.

Retaining Latch -All STIHL Battery powered products feature a retaining latch that is designed to prevent the unit from unintentional starts when the battery is inserted.

Variable-Speed Trigger -The variable-speed trigger allows precise control for each task.

Multi-Function Control Handle -Having easy access to all of the controls on one comfortable handle helps makes it easier to complete tasks so the operator's hand never has to leave the handle.

High-Tech Polymer Housings -Housings are lightweight, withstand greater impact, and are corrosion-resistant.

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

With its weather-resistant, high-performance design, the STIHL HTA 135 pole pruner tackles trimming overhead branches with the commercial-grade power and durability of its gas-powered counterparts. It also provides you with the quiet performance and zero exhaust emissions of battery-powered equipment. With durable and field-proven components like a magnesium gearbox and a trusted telescopic shaft, the HTA 135 delivers the cutting performance you have come to expect
