Product Description

Features

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

Adjustable Depth Wheel -The adjustable depth wheel allows users to control the depth of the cut.

First battery-powered edger in the STIHL AK System -The FCA 80 edger is a versatile addition to the STIHL AK System to give homeowners a wide range of battery-powered tool options.

First battery-powered edger in the STIHL AK System -The FCA 80 edger is a versatile addition to the STIHL AK System to give homeowners a wide range of battery-powered tool options.

Features a new loop handle design with quick adjustment -The new loop handle design with quick release allows operators to easily customize their working position for optimal comfort and efficiency.

Two Speed Levels -A choice of speed levels allows users to optimize the performance of the tool. Use low speed for extended run times and less demanding jobs. Choose high speed for maximum performance.

Brushless Motor -The advanced brushless motor virtually eliminates maintenance while supplying the power and performance you expect from STIHL.

Curved shaft -The curved shaft features a lightweight design and high blade speed.

As the first battery-powered edger in the STIHL AK Homeowner System, the FCA 80 brings the same exceptional power and performance as its gas-powered counterpart, the FC 56 C-E. With a curved shaft, loop-handle design and an adjustable depth wheel, this edger helps achieve a precise cut with ease and comfort. Equipped with a brushless motor, the FCA 80 is virtually maintenance free. With two speed levels, you can optimize performance based on your needs—reduce speed for extended run times or raise it for maximum power. Homeowners will enjoy adding this powerful precision tool to their yard care lineup.
