Product Description

Features

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

Stop Switch -With the Stop Switch, the equipment's ignition is always ready for starting. Products with this feature shut off easily by pressing and holding down the switch. When the switch is released, it returns to the start position automatically, reducing the number of steps needed to start the product.

Skid Plate -All STIHL edgers come equipped with a skid plate to protect the gearbox during use.

Bring your A-game to any landscaping job with the STIHL FC 111 edger. With its large 24 oz fuel tank and low exhaust emission engine, this professional edger delivers 30% longer run times than the previous model. It features a vertical pleated paper air filter with larger surface area for better filtration, extended service intervals, and increased product life. In addition, get to the job faster with the easy three-step starting procedure. With its semi-automatic choke lever and one-touch stop, this edger is ideal for the demanding professional landscaper's edging tasks. Walking the line has never been easier.

Warnings and Safety

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand, and follow carefully the operating and safety instructions in your instruction manual before using such products.

Note: STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.
