### Product Description

#### Features

**STIHL Electric Motor** -Lightweight and compact, STIHL electric motors require minimal maintenance and feature low noise levels and reduced vibration.

**"Open" Deflector Design** -The professional "open" deflector design helps minimize clogging, allowing for more efficient cutting.

**Adjustable Depth Wheel** -The adjustable depth wheel allows users to control the depth of the cut.

**Adjustable Depth Wheel** -The adjustable depth wheel allows users to control the depth of the cut.

**Line-of-Sight Marking** -A notch on top of the edger's deflector helps guide the user during use, helping to create cleaner, more precise cuts.

**High Blade Speed** -The FCA 135 is built for the professional end user who desires a high blade speed to help take on regularly maintained edges.

**Weather-Resistant Design** -The weather-resistant design gives users the advantages of a powerful tool with a sturdy construction.

**Battery Indicator Lights** -This product is equipped with built-in indicator lights, showing the battery status and remaining level of charge.

**Variable-Speed Trigger** -The variable-speed trigger allows precise control for each task.

As the first battery-powered professional edger with a curved shaft in the STIHL AP Battery System, the FCA 135 is built for extended use in noise-sensitive environments. With a lightweight design, high blade speed, and variable-speed trigger, this edger offers maneuverability ideal for flower beds or well-maintained edges. The line-of-sight markings and adjustable depth wheel help you make precise, clean cuts every time. With its durable, weather-resistant construction, a little change in the forecast won't slow you down. Built with a brushless motor, onboard metal air filter, and the same shaft and gearbox as its gas counterpart, you can count on the FCA 135 to perform with the same high power and dependability you've come to know from STIHL gas-powered products. The FCA 135 professional edger is a powerful addition to your battery-powered lineup, perfect for putting the finishing touches on a job well done.

#### Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

Note: STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty.
