

On-Unit Wheels -The on-unit wheels allow for easy transportation, both while the unit is powered off and while in use.

The powerful, durable RE 100 PLUS CONTROL features a 3-in-1 spray nozzle that allows you to switch between fan-jet, rotary, and detergent settings. The easy-to-use control panel on the spray gun lets you adjust the pressure at three different levels, so you can safely clean many different surfaces. With the integrated detergent tank, you don't have to worry about switching nozzles between functions. Ideal for homeowners and residential users, the low-noise, zero-exhaust machine allows you to clean up with minimal disturbance to your neighbors.

This tool is IPX5-rated weather-resistant construction and has been designed and tested for protection from water jets.

Warnings and Safety

WARNING! Improper use of any power tool may cause injury or death. Read, understand, and follow carefully the operating and safety instructions in your instruction manual before using such products.

Product Description

Features

IPX5 Rating -This tool has IPX5-rated weather-resistant construction and has been designed and tested for water jet protection.

Three Power Levels -Easy-to-use control panel on the spray gun allows user to select from three power levels depending on the surface being cleaned. This versatility helps homeowners clean virtually any surface, from durable to delicate, with one machine.

3-in-1 Nozzle -The 3-in-1 nozzle allows users to easily switch between spray settings—fan-jet, rotary, or detergent—without having to change nozzles.

Built-in Detergent Tank -The integrated detergent tank, in combination with the detergent setting on the 3-in-1 nozzle, allows users to dispense soap quickly, without having to change nozzle attachments.

Integrated Pressurized Hose Reel -Users can easily wind and unwind the high-quality hose—unlike storage reels where the high-pressure hose must be connected and disconnected with each use.

Low Noise, Zero Exhaust Emissions, and Zero Fuel -With its low noise and zero exhaust emissions, the clean, quiet operation of the RE 100 PLUS CONTROL provides users with outstanding performance in a low-maintenance package.

Wide Range of Optional STIHL Accessories -Experience the flexibility to clean just about any surface.

Lightweight Portability -This product is lightweight for easy portability, great maneuverability, and extended use.

Easy to Use -With low noise, zero exhaust emissions, and no need for fuel, this electric pressure washer is easy-to-use and delivers STIHL quality in a low-maintenance package.

Efficient and Virtually Maintenance-Free Motor -The brushless motor is ideal for noise-sensitive environments with virtually zero maintenance required.

Stainless Steel Pump Pistons and Aluminum Pump Manifold -The high-quality design and components—including stainless steel pump pistons and aluminum pump manifold - are designed to resist corrosion and wear.

Two-Piece Lance & Gun Assembly -This pressure washer features an easy, convenient two-piece lance and gun assembly. The lance design is extended for better accuracy in applications requiring extension.

Easy-Access Water Connections -Both inlet (water coming into the pump) and outlet (water going from the pump to the gun) connections are easy to access for faster setup.

Upright Grab Handle -This sturdy, upright handle allows for easy maneuverability during transportation and while the unit is in use. Operators do not have to stoop or crouch to access the upright handle.
