

760 zero-turn mower optimizes every aspect of the mowing experience, maximizing performance and efficiency while minimizing the maintenance that comes with its gas counterparts. A built-in 24 kWh lithium-iron phosphate battery helps deliver up to 8 hours of run time or the ability to mow up to 21 acres on a single charge. And with the versatile 70A charge on 110- or 220-volt circuits with its included charger, this zero-turn mower can be ready to take the field day after day. Its 60" fabricated mowing deck and ability to reach speeds up to 16 mph means pros don't have to sacrifice durability for efficiency. On top of all the specs pros are looking for, this mower adds comfort and convenience features like a high-visibility touch screen display, rollover protection with 360° LED illumination, and a premium suspension seat. The STIHL RZA 760 leaves no room for compromise with a professional-grade battery mowing experience that changes the game for pros. and speeds up to 16 mph—one of the fastest on the market.

*Run time may vary based on charge level and capacity, model, operating style, and conditions.

This tool is IPX4-rated weather-resistant construction and has been designed and tested for splash water protection.

Product Description

Features

24 kWh Lithium-Iron Phosphate Battery -The lithium-iron phosphate chemistry enables up to 2,000 charge cycles at 100% capacity.

Up to 8-Hour Potential Run Time -With up to eight hours of potential run time on a full charge, this battery-powered zero-turn mower can mow up to 21 acres.

Two ETO (Electric Take Off) Powered Ports -Front and rear ports will power future accessories in development.

High-Visibility Color Touch Screen Display -The high-visibility, color touch screen display shows data fields about the mower. This allows users to easily change mower speed, view blade speed, monitor available battery power, and more.

Deluxe Suspension Seat with Armrests -The suspension seat with adjustable backrest, armrests, and lumbar support is designed to provide a comfortable ride throughout the job.

Built-In Connectivity -With the STIHL RZA app, users can adjust settings and monitor their mower's location. In addition, run time data and diagnostic information is available through the app.

IPX4 Rating -This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Foot-Operated Cutting Height -Users can easily adjust the cutting height while seated.

Integrated Cup Holders -Cup holders conveniently keep drinks secure and within reach.

Rear Storage Shelf -Carry up to 250 lbs. with convenient tie-down points.

Flexible Side Rubber Discharge Chute -Chute allows grass clippings to be released to the side of the mower and out of the way of the cutting path.

One USB-A and One USB-C Port -Users can charge mobile devices with a USB-A and USB-C port in an enclosed storage compartment.

Roll Over Protection System (ROPS) -The advanced ROPS features polyurethane blocks to prevent rattling while in motion and conveniently folds for easy storage and trailer transport between jobs.

Automatic Parking Brake -Parking brake automatically engages and disengages saving the operator time.

From residential areas to commercial landscapes and more, STIHL is bringing professional-grade battery power to wherever pros are taking on the work and getting the job done. Built with the professional user in mind, the STIHL RZA
